# INNER SPACE

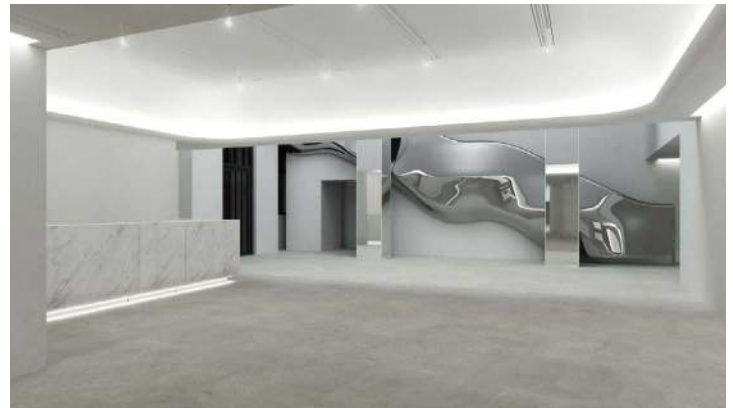

## TECHNICAL SERVICES SYSTEM PACKAGE

Audio	Quantity
Bose ceiling mounted speakers	54
Paging mic for announcements	1
The hall is covered by a PA system mounted in the ceiling. This is zoned so that specific areas can be used for audio reinforcement of the entire area. Background music can be played and/or announcements made from inside the Inner Space or from the Vision Hall.	

Lighting
Architectural lighting has been installed by the venue which can be adjusted to match the corporate branding and mood of events.
<i>Additional package of uplighters can be added upon request</i>

Connectivity
There are wall mounted panels which provide connectivity for video displays, audio and other additional equipment.

Technical Support	Quantity
Technician to operate the equipment. They will be on an 8-hour call. Overtime beyond 8-hours will be charged at additional cost.	1

Additional technical equipment for all the above spaces can be procured from the in-house provider *Pixl Evolution*.
